

Hunter

2 Br 1 Bath 12.5 meters long x 5.25 meters wide

**Floor plans can be flipped or mirrored to suit your site. *Decking material not included. Artists impression only.*

Simplicity, Space, and Effortless Living

The Hunter provides a minimalist design with maximum space within a spacious central open-living area. Large stacker doors frame the view and link seamlessly to outdoor areas. This layout provides privacy between the bedrooms, with a generous sized master bedroom. All built with plentiful storage for practical living at an affordable price.

Compared to traditional homes, the quality materials and attention to detail make the Hunter an effortless choice. The versatile design makes for an ideal holiday bachelor retreat or a secondary dwelling, or your first premade home.

The Hunter is available in both Skillion and Gable roofing profiles.
